HORIZONTAL HIGH-VOLUME HYDRAULIC FRACTURING, OR FRACKING, HAS NEVER BEEN PERMITTED IN NEW YORK STATE. UNTIL NOW...

MILLIONS OF GALLONS OF POISONOUS FLUIDS ARE PUMPED INTO THE GROUND TO FRACK EACH GAS WELL. HUNDREDS OF DIFFERENT CHEMICALS ARE USED.

............

FRACKING CHEMICALS HAVE BEEN FOUND IN DRINKING WATER.

BIG GAS CORPORATION HAVE THE BEST LEGAL LOOPHOLES MONEY CAN BUY. THEY DON'T HAVE TO OBEY HAZARDOUS WASTE LAWS.

EACH MARCELLUS GAS WELL CAN PRODUCE MILLIONS OF GALLONS OF TOXIC, RADIOACTIVE WASTE.

THERE'S NOT A SINGLE TREATMENT PLANT IN THE STATE THAT CAN CLEAN IT UP.

HOW MUCH FRACKING WASTEWATER WILL BE DUMPED ON OUR BACK ROADS WHEN NO ONE IS LOOKING?

FRACKING IS EXEMPT FROM THE SAFE DRINKING WATER ACT. IF FRACKING IS SO SAFE, WHY HAS THE INDUSTRY FUGHT SO HARD TO GET AROUND THE LAW?

FRACKING HAS NOTHING TO DO WITH ENERGY INDEPENDENCE. FRANCE, BRITAIN, NORWAY, JAPAN, INDIA & CHINA OWN AMERICAN GAS LEASES & GAS RESERVES.

SOME GAS WILL GO TO COUNTRIES WHERE FRACKING IS BANNED BECAUSE IT'S TOO DANGEROUS!

............

FRACKING THREATENS YOUR PROPERTY RIGHTS. LIVING NEAR A GAS WELL CAN MAKE IT IMPOSSIBLE TO INSURE OR SELL YOUR HOME.

A LAW WRITTEN BY INDUSTRY LOBBYISTS LETS GAS COMPANIES DRILL UNDER YOUR LAND EVEN IF YOU SAY "NO" TO LEASING.
